The problem

- We are using Gas to much that we have a little bit.

What we can do

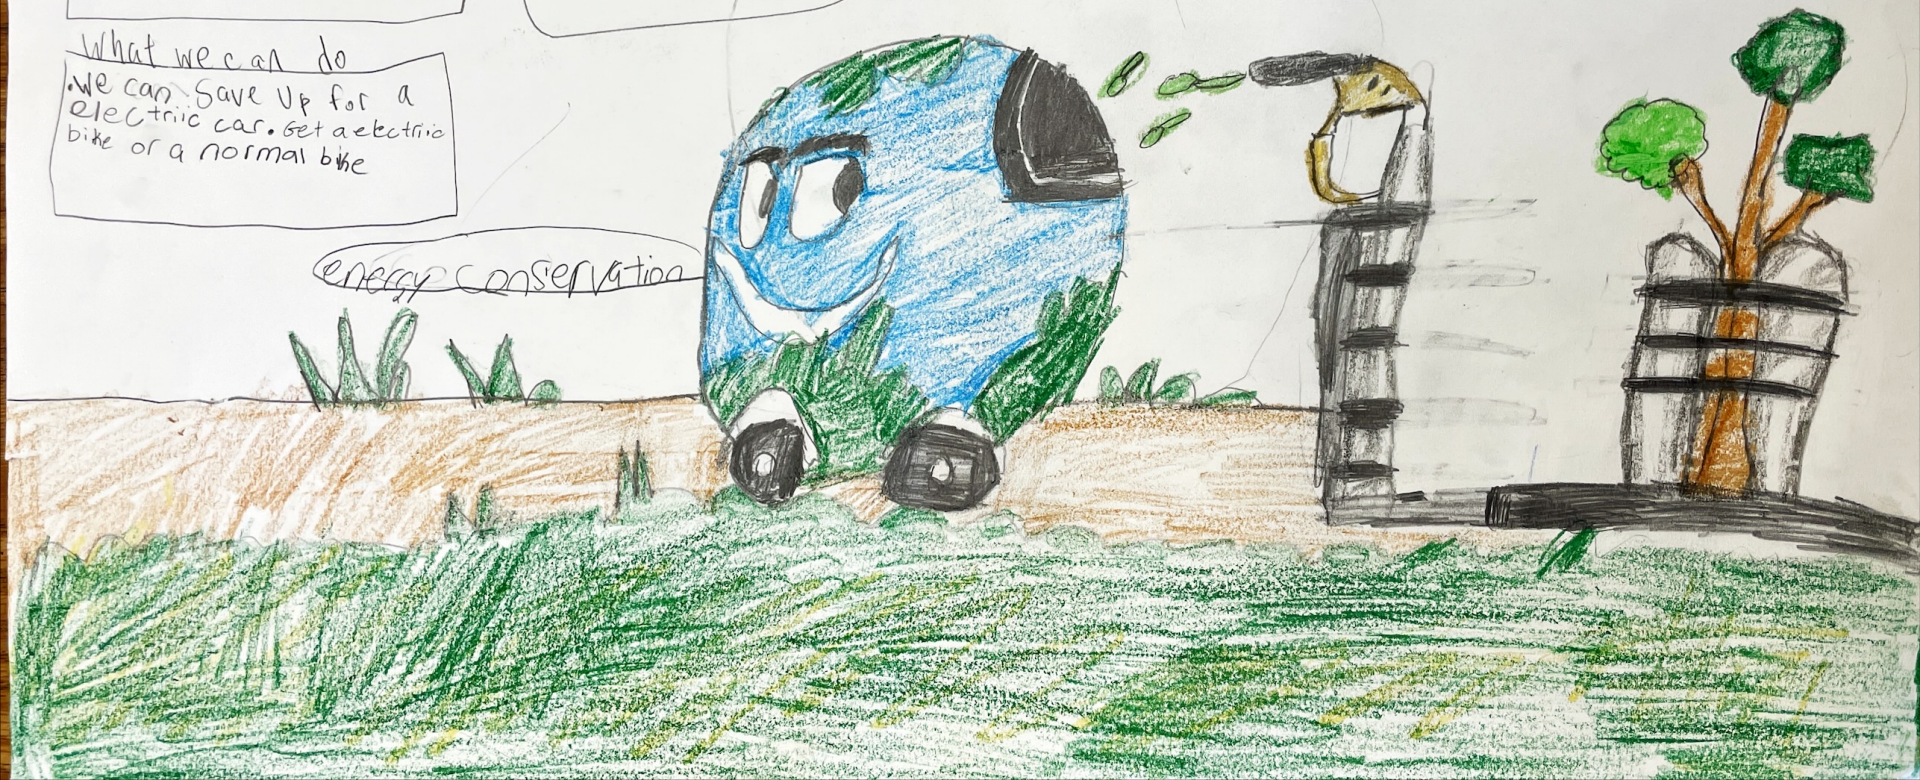
- We can save up for a electriic car. Get a electriic bike or a normal bike

Elecioce difference in community

- The natural gas vehicle a responsible way to travel.

The important facts

- First fact we are using gas faster than it is being made.
- We are using 11% present of the syetem
- There are a little gas to waste.

What I want for people to know


I want you to know If we keep wasting gas It is going to feel like the End of the World.
