alex Cooley 11/10/15

I am thankful for animals. They would give thier lives for us to survive. Chicken would give thier young and pigs would give their lives. Animals provide us with food and what we need to survive. Many animals don't even provide us with food. The indians used dear hide to make clothing. Cowboys used horses to travel from place to place. Wolves were taned to dogs, as a mans bestfriend. Many animals give thier lives for us and that is why I am thankful for animals.
