I'm Thankful for....

Is it true that people are thankful for alot of things? It is true for me. I am thankful for alot of stuff! For instance I am very thankful for my family, Clothes, house, education, being alive and my best friends.

One of the things that I am most thankful for are my pets. The reason I'm thankful for them is because when my grandmother brought home two maltes dogs, my family and I almost fainted. She got us two of the cutest maltes dogs we had ever seen. There names are Cleo and Cesar Patra. I'm also thankful for them because they help me get through things. For example, when my great grandma dies one day I know my dogs will be there to cheer me up.

Something else that I am thankful for is having the best teachers, Miss Gordon and Ms. Diaz. The reason why I'm so thankful for them is because they teach me so well that when I grow up I want to be just like them. Also, because they are my third grade teacher's best friends. So I know I can trust them.

These are just some of the reasons why I am so thankful for my pets and my teachers. I could not go a day without them in my life. I am so thankful to have them especially at this time of year.
