Frederick Leighton Elementary – 4th Grade
Oswego, NY

Aodhan Nevin

What are you thankful for this year?

I am thankfull for my awsome family because they help me if I am frusterated and encereg me.
• A dend thing I am thankfull for is my friends they always have my back they are always nice and they let me play with them.
• A third thing I am thankfull for is food and matireals because if we didnt have food we would starve if we didn't have matierials we wouldn't be able to make things like pencils factorys and Schools. I am also thankfull for Shelter because if we didnt have shelter were would we live or were would we put all of are stuf. This is why I am thankfull for Shelter I am also very thankfull for drinks like water and milk. If we didnt have drinks we would all be dehidrated. I am also thankfull for electricity. If we didn't have electricity we would not beable to see in are house when it is dark. This all the things I am thankfull for well I am also thankfull for nature an other thing like games.
