So thankful for...

I am thankful for my family because they love me. I am thankful for my sisters and brothers because they are fun to play with. I am also thankful for everything, including my family my bed and my clothes. I am thankful for what I know like Multiplication and division. I am thankful for my Mom and Dad because they protect me. I am also thankful for the house I live in because I have a beautiful house. I am thankful for everything because I love the life I have.
