What I am Thankful for

Thanksgiving is the holiday when all my family members get together to eat lots of food, and it is the time of year I write about the things I am thankful for.

One thing I am thankful for is food. Without food I won't be able to survive. Without food I would go hungry and starve. Food helps me grow big and strong and gives me the energy I need. Food can give nutrients to my body and is a important part of growing up.

Another thing I am thankful for is my parents. Without my parents I wouldn't be here. Without my parents I wouldn't learn the skills I know today. My parents took me to school, gave me food and cared for me. My parents are a important part of my life and I can't live without them.

I am also thankful for my home. Without my home I wouldn't have a place to live. Without my home I would be cold with no protection. My home is a really important part of my life and I need to be thankful for it.

I am also thankful for my school. Without a school I wouldn't have an education. Without a school People won't have jobs or money. School helps me learn life skills and is a good opportunity to make friends. School is very important and is a special place to learn.
