There are many things I am thankful for. One thing I'm thankful for is my family. I am thankful for my famliy because they help me when I need help. Also my famliy makes me happy when I am sad. My famliy also takes me to different places like Disney World. Another reason I'm thankful for my famliy is they make me have fun. They also buy me things that I need like food and clothes. There are many things that they do for me.
