I'm Thankful

By Ellen McClain

I'm thankful for what I have, because what I have is enough. I'm thank ful for my friends, family and more!

I'm thankful for my family. I'm thankful for them because they give me food and shelter.

I'm also thankful for my friends. I'm so thankful for them because most of them make me smile when I am down. I'm also thankful for them because they keep me company.

I'm thank ful for school too. If I didn't go to school, I wouldn't have a good education. I'm glad I go to shool because if I didn't, I wouldn't learn or meet as many people.

I'm really thankful for food. If there was no food on the earth, there wouldn't be any one on

the earth. If there was no food, I wouldn't be here to be thankful for all of these things.

The number one thing I'm thankful for is the earth. There wouldn't be anyone alive and there never would have been. The earth gave me everything here to thank, and a lot more!
