I go to church to praise our Lord. Our God is the key to our survival. If he wasn't here we wouldn't be here. God is our creator. I am so happy he is in our lives.

The best thing I am thankful for is a happy life, A happy family and good education. I have health and strength, I also pray, so we can have a good time. I will always love my family and friends. The one thing I am really happy about more than anything else is my family.
