Grade four Nurturing center
and Academy

I am thankful for having family, friends, Our God and a happy life.

I am thankful for having a family, they help me at all times. They even cheer me up when I am not having a good day. They help me with my homework. Last but not least They make me feel happy, and keep me safe.

My friends make me laugh and giggle. We talk about things we like at lunch, then we go out to play outside. Outside we play for 30 minutes. I always have games to share with my friends.
