Angela Janzen November 18, 2015

I am thankful for a comfortable bed that I can sleep on, a lovely house that I can live in, a school where I can learn, and a terrific family who take care of me.

I also am thankful for clean water and food because some people have to go miles to find water and it may even not be clean!

I am happy that I can read and live in a free country where I can pray to my God and read the Bible without getting persecuted.

I give thanks to God that I am healthy and when I am not, doctors and nurses will help. Plants and animals help us have medicine and food.

I am thankful that I can see beautiful things and smell delightful smells and hear wonderful music. My friends I am happy for so that I have people to talk to and so I won't be lonely. When I say I am thankful, I am really thanking God.
