What I am Thankful For

You should be thankful for all the things you have in life. I am thankful because there are some people who don't have the things I have. So I am going to tell you things I am thankful for.

Family and Friends

I am thankful for my family and friends. Without them I don't know what I would do. My parents and my sister are a big part in my life. My mom and dad make me food, help me with my homework and they are there for me all the time. My sister makes me sandwiches. She also helps me with my homework and when I was little she helped me learn how to ride my bike. My cousins, uncles and auntes are helpful too. But I only see the ones who live far about twice a year. But they still are important. It's also fun visiting my grandparents sometimes. I don't

Johnathan Barriteau

see of them often though. But its ok. Then I am thankful for my friends. They make me laugh and we help eachother. We have fun and do lots of things. So I am thankful for my family and friends.

Food and shelter

I am also thankful for food and shelter. Food is important. It helps me survive. Some kids in other countries don't have food at all. I have water to drink and food to eat which makes my body strong and healthy. My family has enough money to buy food and make delicious meals at home. People should always have food to eat. I am also thankful for shelter. I am glad to have a house to live. If I didn't have a house I would be outside in the rain, snow, hurricanes and other storms. So I am very happy to have shelter.

Clothes

Clothes are very important. Clothes keep us warm. When it is cold outside I don't want to wear shortpants and

Johnathan Barriteau

shortsleeves and freeze. I want to feel the right warmth at the right time. Coats, scarves, gloves, hats, pants, shoes and shirts are things I am glad to have.

School

School is great. In school I learn and make friends. I made most of my friends in school. School is a good place. Teachers help me learn Math, ELA, social studies and science. Soon I will become a master at all of these things. If I practice hard I will go to a good college get a good job and become a leader. I want to go to go to a good college and get a good job. I will study hard, try try again and do my best. This is why I am thankful for school.

Laws/Rules

I am also thankful for rules or laws. They help keep me safe. I want to be safe and not get hurt. So this is why we have police officers, fire men and paremedics. They keep us safe. Everywhere has rules. Schools, stores, resturants

Johnathan Barriteau

and even my home. Rules keep me safe and protect me. I am thankful for all the people who protect me and keep me safe.

Transportation

I am thankful for transportation. There are cars, motorcycles, planes, trains, streetcars, buses and bikes. Transportation is helpful to me alot. If there was no transportation I would have to walk alot or would just not beable to travel far distances and visit places and see family members.

Toys/Entertainment/Technology

I am thankful for toys and things like sports and board games. These things entertain me and make me have fun. I like playing sports like soccer and basketball. Doing these things make me very happy and excited. Playing games are really really fun. I am also thankful for technology and all the new inventions. Technology helps me with my homework. It also entertains me and helps me learn.

Johnathan Barriteau

These are things I am thankful for. Everyone should be thankful for the things they have. So I am happy to have cool things and I will always be thankful for the things I have and my loving and caring family and friends.
