I am thankful for food because if we didnot have any food we would be hungry. I am thankful for a loving Mom and Dad because some parents don't care about them. I am thankful for the people who fight for us because if they didn't we would not be here right now. I am thankful for clothes on my backs. I am thankful for books. I am thankful for my friends and familly because if we did not the world would be empty. I am thankful for all. I have!
