Family

I'm thankful for my family because I love them and without them I wouldn't be able to get better if I was sick. I wouldn't be able to have the things that I have now. My family loves and takes care of me and I do the same for them. I love my family to the moon and back and I'm very thankful for them.

Food, Water & Homes

I'm thankful for food, water, and houses. Food keeps us from being hungry and even from death. Water has many uses that I'm thankful for. Those things are oceans, lakes, and pools. Also, drinking and bathing water. Water keeps us alive and is very re-freshing. I'm also thankful for houses. Houses keep us warm or cool and safe.

Technology and Medicine

I'm thankful for technology and medicine. I'm thankful for technology because without it we would freeze in the winter and be very hot in the summer. We wouldn't have the devices and other things that we have. I'm thankful for medicine because without it I would probably be dead right now because I've had the Flu and it can be deadly.

Teachers & Schools

I'm thankful for teachers and schools. This is because without them I would know almost nothing and would not be successful in life. I feel good when I feel smart. And I like knowing things and don't want to know what it's like to not know anything. That's why I'm thankful for teachers and schools.
