

Things I Am Thankful For

By: Lily Garfinkel

I am thankful for many things:

For the birds that sing and the phones that ring

For the ground under my feet

For the roof of my house, the A/C and the heat

For all the movies, books and television shows there are

For the silver mini van in front of my house, my car

For having all my family, friends and teachers there for me

For the times I go on shopping sprees

To sum it up, I am thankful for pretty much everything I can believe

And for having a free country, and for all the love I receive
