My Thankfulness

Written By: Micah Springer

Some people may not be thankful for things, but I know I am thankful for alot of things. Here are some examples of what I am thankful for:

Family

Without my family, I would not be here. They picked me up when I fell. They made me who I am and they inspired and motivated me to do what I do know.

My dad builds computers, websites, blogs and etc. That is why I love computers and technology. Since my dad also loves to sing, I love to sing. Since my mom loves to dress up, I love to dress up. My parents potty-trained me, tought me how to add, subtract, multiply and divide. They also tought me about the wonders of the world. They are nice, (sometimes strict) and good people. My mom works at this school and my dad works at Odell Plaza in the Yonker (Deep in Westchester.)

Without my dad and mom working, my brother and I plus my family will not have food, water, shelter, clothing, television, curtains, bedrooms, offices, a kitchen and other things. My mother and father tought me that education is key to a successful life.

I tought myself, (based on what my parents tought me), that education is the cornerstone of a democratic soc ty.

Now, you did not think I forgot about my brother now did you. Well, lets talk about him then. My brother, Joel Springer, is an educated and smart boy. Sometimes he can be annoying and he can get on my nerve but I am very thankful for him. My brother helps me when I need him and he never lets me down. My brother also loves to sing and he also loves technology. My brother gets good grades like me.

My family is my life. If they get hurt, I will get hurt because I don't like seeing my family hurt. Oh, yah, that leads me to this Statement.

My family made "Family Safety Procedures" in case of an emergency. In case of a Fire Drill, my family and I [illegible] (Fire Drill) [illegible] seem a good [illegible]. In case of a hurricane, we stay from the doesn't [illegible] needed [illegible] freezer.

Most of these things my parents do is know what I take care when I get older.

My family is in cooperation, a mother, my teachers, helping the poor people. My family is full of loving people. They are not theves nor liers.

In conclusion, I love learning because my mother [illegible] school [illegible] my and I. My dad works to earn money for the fam[illegible]. My brother helps bring me certain things. Overall [illegible] love my fam[illegible] my fam[illegible] loves me. My family is [illegible] fun

Food

Shelter,
Clothes Basic
Needs

Food:

I am very [illegible] for food. Even though [illegible] you [illegible] eat to live. When you eat food it goes down to your digestive system. Then, your body produces food into energy. Without the food your body needs to turn into energy, you can't concentrate properly in school or [illegible] anything.

Food can show how much you care about. Food can show all the flavors of the [illegible]. For example, when [illegible] Spring, people have [illegible] and parties. People normally eat burgers, hot dogs, [illegible] potatoes and other things. For the [illegible], we eat, stuffing, ham, turkey, potatoes and more.

Those [illegible] food would be good for.

I am [illegible] [illegible] [illegible] food
[illegible] [illegible] [illegible] [illegible]
together. Whether a person is [illegible]
[illegible], [illegible] [illegible] [illegible] [illegible] [illegible]
[illegible] [illegible] together. [illegible] [illegible]
I think [illegible] important

Shelter

[illegible] shelter. Shelter [illegible] but people [illegible] [illegible] shelter [illegible] [illegible] [illegible]

When [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

Here's one fact, many people in the world have no shelter. Instead, [illegible] the streets. When that happens, people can get really sick from [illegible] [illegible]

Many people don't like to help people [illegible] the street. So people can [illegible] [illegible]. That is why shelter is very important. Some people do have [illegible] [illegible] [illegible] [illegible] [illegible]

[illegible]

gave him shelter and he made the man feel [illegible] place may I add.

They gave [illegible] food, well prepared, nearly food, sat him down at a nice, clean table and the man [illegible]. All of this happened suddenly, the man did not know anything [illegible].

Good shelter can lead to a safe life. Shelter completes a home, Store, or any other place. A place without shelter is actually an unsafe, incomplete place.

Shelter is actually a big part of [illegible].

Copy this sentence: Shelter is a big thing that [illegible] a person feel secure.

It is important for people and children to have shelter.

Clothes

I am very thankful for clothes. Clothes have different purposes. You were clothes on graduations, parties, wedding and other. Clothes can stand out for different reasons too!

Clothes are there for a reason. They cover up your body parts so you can present yourself appropiately Just think about, you can't go to a meeting nuude and think you are presenting yourself appropiately You will embarras yourself. That's one reason why clothes are important.

I am also thankful for clothes because (I know this a little violent but) their are certain clothes that can protect you from guns and bullets. For example, there are vest called bullet-proof vest.

These are the reasons why I think clothes are important.

The Wonders of Life

I am extremely thankful for life. Life is the reason why we have family, friends, shelter, food and a bunch of other things.

With life, people can become many different things. People can become doctors, lawyer, teachers, mangers, engineers, doctors, dentist, home owners, resturant owners and etc.

New Life is a wonderful thing. I know it is a good thing because I experienced it.

When I was born into the world, it was a wonderful thing. I got older, and now I see some of the wonders of life. Life is amazing because you can see many different things.

Some people think life is not important but the reason why people are smart, educated and important is because of life. There is an important person named Dr. Martin Luther King Jr. helped stop segregation

because he was born into the world and he wanted to make a big difference in his life.

That is another reason why life is important. Another reason why life is important is because you can meet so many amazing people.

Some people you meet can be your new best friend. Believe it or not, meet people in your life can help your social media skill.

In conclusion, having or bringing life into the world is a wonderful thing. Life can lead you to so many things.

School
and Education

School

I am really thankful for school. At this place, you can learn different things about the past and the future. You can learn how to read and write stories and narratives. You can learn about all the wonders of science and you learn how to add, subtract, divide a multiply.

There are so many things you can learn at school I cant list them all. Another reason why I am thankful for school is because some children in the world have no schools and with no school can come with the effect of no education. Going to school is very important. Going to school can lead you to a successful an intelligent life.

Some people to school but not pass in school because the don't want anything to do with education.

I'm thankful for school because I can go there to learn, be on my way to a successful life and get into a good collage. School and Education is really important because without the educational thing tought in school, people would not have a good education and life. That is another reason why I am thankful for School and Education.

Since I go to school and get good grades and awards, I am on the trail to a life of success.

In conclusion, school and education is important and a thing I am thankful for.
