## **What are you Thankful for?**

I am thankful for many wonderful things in my life over the past years. First of all I am thankful to God my creator. Second most, I am thankful for having a very nice family. I am thankful for my parents for many great reasons. They help me whenever I have trouble, they are always there for me, they always take care of me, they teach me not to do the wrong things, and they cook foods for me to eat. I am thankful for my brother because I spend most of my time with him, he is my best friend, and I wouldn't be really happy without him. I am blessed with so many family members. I am thankful for my teachers because they help me in my educational career. I have a couple of great friends. They are always there to help me, they hangout with me and they support me when I am in difficult situations. I am thankful for all the things that I have, such as food, water, and shelter.
