Merci Thank You Vielen Dank

I am Thankful

This year I am thankful for my parents because they always take care of me and they always feed me. They care more about me than themselves. They buy things for me and help me with lots of things. They take care of me and take me to the the doctor when I don't feel well. My Dad takes me to places that are really fun. Mom cooks really yummy food. That is why I am thankful for my parents.
