What I'm Thankful For

I am thankful for many things. Some things I'm thankful for are my family, health, senses, house and education. I am thankful for my family because they raised me and provided me with all my basic needs. I am thankful for my health because my health could be worse and all my body parts work correctly. I am thankful for my senses because some people are blind or deaf but I am not. Another thing I'm thankful for is a roof over my head. Some people have no homes at all, but I have a home. I am also thankful for an opportuniy to get an education. Some people doesn't have enough money to attend school or the opportunity to go to school. This is what I'm thankful for.
