Giving Thanks

I am so thankful and grateful for life. Without life, how would I even be here today? Life is a special gift from God, and this is by far the most best gift I have ever recieved. I am definetely thankful for my family and friends, always supporting me in what I do. I am also grateful for freedom in the United States, and my chance to live here. My parents were both from Bangladesh, and I am grateful for moving here to have the best life possible. I am thankful for my basic needs, food, water, clothes, and shelter. My parents are working very hard to earn money for our family. There are definetely many things I am thankful for, but it would take ages to name them all.
