What Am I Thankful For

I am thankful for many things in my life. One thing that I am thankful for is my family. My family includes my mother, my father, my sister, and my brother. I'm thankful mostly for my mother and my father because they do everything for me and they inspire me to continue learning. Also my brother and my sister keep me smiling everyday even though we fight sometimes. So I am mostly thankful for my family more than anything else.

Another thing that I am thankful for is that I am able to go to school every day. Kids around the world are not allowed or are not able to have an education. But, I am lucky enough to be able to go to school and get an education. Also I am able to take my education and use that to be able to get a good job. Being able to get a good job is a big part of being able to pay for rent, electronics, and trips for them to travel around the world.

I am also thankful that I am able to have food and a home. Also a lot of people are homeless. This makes them not able to have a meal or have a shelter every day, like I do. I am lucky that I am able to have a meal everyday when I come home from school. But luckily there are shelter and some people donate food to them and they can eat and not be starving every day of their lives before they die of hunger.

Also I am thankful for all of my electronics and that might sound selfish but it is true because I am lucky to be able to have anything that I have. I am lucky because my parents work and they were able to save up enough to but me and my siblings' electronics and I am able to use it

whenever I want to. Some kids don't have anything in their house and they have to go to a library in order to even print homework. Other kids are not able to go to the library and they have nothing that they can do. So I am lucky and thankful for anything that I have and for anything that I am able to use.
