What do I do

What do I do

I'm trapped

With no way to go

My mind is going Kablam

What do I do

I fight back

Make them get out of the way

I feel stronger

Every step of the way

What do I do

I don't feel safe

With no way to turn

There is no place to stay

What do I do

I wish I could

Find this place

Where I am safe

I am trying my best

What do I do

I want to cry

Wish I could

Just cry

And express everything inside

What do I do

Have I found a place

A place where I am alone

A place where I am safe

A place to express everything inside

What do I do

Is this the place

I'm alone

I'm safe

I can express everything inside

What do I do

I've found the place

Is this where I want to stay

I think this is where I want to stay

What do I do now
