Stefone Nov. 6. 15
Mrs. Olives writing

I am thankful for my friends and family. One way that Im thankful for my friends and family is that if I'm sad or mad they will cheer me up. For example if I got hurt they will ask me what happened. My friends and family also support me when I will play a game or a sport. When Im playing football with my next door neighbor and I did not make a touch down they would say "you can make it next time." Also I am thankful for my friend and family because they will take care of me. Like when Im sick they will give me medicine and take my temperature. That's all the ways I am thankful for my friends and family.
