

I Am Thankful For This Year

I am thankful for this year. I am thankful for this year because I have a roof over my head, I can go to school, a loving family and friends who will always be there for me.

I am thankful for this year because I have a roof over my head and food on my plate. For example, the people living in Somalia are struggling for food and they need it to survive. I am thankful for this year because I have a roof over my head and food on my plate.

I am thankful for this year because I can go to school. For example, my mom never got to finish high school because my mom's dad passed away and her mom couldn't afford paying for school plus my mom had 7 brothers and sisters. I am thankful for this year because I can go to school.

I am most of all thankful for this year because I have a caring and loving family and friends who care about me.
