Villa Maria Academy

I am thankful for so many things this past year. I think one of the most important things was getting my French Bull Dog, Sadie. She has brought so much joy and happiness to my family and I. My parents are always a blessing to me because they take care of my brother, sister, and me. Having my grandparents upstairs is great because I am thankful to see them everyday.

I am very grateful for being blessed with good health not only for me, but for my whole family. My home is very special and I realize how lucky I am to live in a house that is filled with love, joy, and togetherness. I remember that everyday!
