Have you ever thought of how much your parents do for you? I know my parents do alot for me.

My Parents help me with my homework, but they do not tell me the answer. They also bring me places I want to go to and were I need to go. like to get clothes, Shoes, doctor, and much more. My parents help when they think it is neccassary or when I need it. They also help my sister. They are two people and it seems that they can do everything.

If you are having truble telling your parents that you need help Show them don't tell them.

Thanks for reading.
