What im thankful for.

There are many things to be thankful for, but Im going to tell you a couple thing's im thankful for.

One thing I am thankful for is my family, I am thankful for my family because they are so kind and loving. My Parents give me things I need not want, Im not spoiled like other kids. Im actually thankful that im not spoiled, children that are spoiled are rude to the Gaurdians. I am also thankful for my sister she is mean but I love her because if some one bothers me she will back me up. I am also thankful for my dog, even tho he is not blood related he is still my family and I love him the same always.

Another thing I am thankful for is God's creation. I am thankful for the tree's and the fresh air, The tree's give us the air we need to breathe. Im thankful for the animals, especially wolves, I love animals they are special and intresting and there big part of our lives. And if we had no animals, we have no food.

Those are some things that are thankful for. There are many ways, but I chose a couple.
