I am grateful to be studying, to have people who help me day by day, for my family, and to have teachers who care about me and offer their support. I am grateful to be studying because, thanks to my education, I learn something new every single day. I am grateful for the people who help me daily, as it is thanks to them that I am here, living a happy life. I am grateful for my family, who have always supported me and helped me in every way they could. And I am grateful for my teachers, who welcomed me into this new place and have supported me as I navigate this new environment.
