## I am Thankful for the Life

long live the bees, long live the breeze, long live the  
swaying coconut trees.

Long live the monkeys swinging from the vines looking  
for the bananas that are

so ripe and fine. Long live the colorful birds swooping  
above. Long live the

Waterfall that falls gently from a cliff and long live the  
question what if. It

stands for the adventure and the life. Long live LIFE!

Long live the beautiful plants and the frogs on the ponds  
shore.

Long live the puppies next door. Let the flowers

breathe as well as the Willow trees.

Let cattails sway in even the slightest breeze.

Let the water in the stream gleam with the

Beam of the shining sun.

Let the Lilly pads float hooked to life by there roots.

Long live LIFE! That's what  
I am Thankful for.
