

I am Thankful for my family because we are just like a computer desk

When there's A missing piece we are NEVER complete

My Mom Is just Like the computer because she is ALWAYS full of information when we need her

My Dad Is the Tower of the computer that knows how to do everything like the mechanic we call him

My Brother, David, is the legs one of the strongest boys in the house

My middle brother, James, is the white out who always fixes the problems

My third brother, Robert, is the mouse who always moves and makes so much noise

As like for me I am the stapler who keeps us all together

When there's a missing piece we are NEVER complete
