

*My family is a human body.*

*I am thankful for my family because we are a human body.*

*My dad is the legs and the muscles because he is so powerful.*

*My mom is the heart because she takes care of us and loves everyone.*

*My brother is the stomach and mouth because he eats almost everything.*

*As for me I am the brain and the eyes because I am very smart and I see everything.*

*I am thankful for my family because we are a human body.*

*My family is a human body.*
