

I am thankful for my family because we are like a football team.

My dad is like the quarterback he runs the house.

My mom is like the coach she tells us what to do

My sister is like the halfback she's quick (to blame me)

My grandma is like the offensive line she's a big help

My two dogs are like the defense sometimes they can be aggressive

And for me, I'm like a linebacker captain of the defense (the dogs) and next in charge

I am thankful for my family because they are great
