“What I am Thankful For This Year” Contest
November 27, 2011

This year I am thankful for two things. I am very thankful for the great family I have. I am also thankful for the awesome activities that I participate in.

I am thankful for my loving family. I have two spectacular parents and two marvelous siblings. My parents always support my dreams and take care of me. My siblings' names are Grace and Henry and they are always there for me when I need them. I appreciate the fun times I have playing with them. I am very thankful for the splendid family that I have because some families aren't as lucky as mine.

I am thankful for the awesome activities that I do. I partake in three sports: soccer, swimming, and skiing. I play travel soccer which is called Blaze. I like playing goalie and forward. The other thing I am very thankful for is the wonderful opportunities that I get because my parents spend so much money so that I can ski. I ski race at Hunt Hollow in Naples. The other wonderful activity I do is swimming. The program is called Quick Swim. I participate in some meets. I am thankful for the awesome activities I do because it is important to stay active and if a person has the ability and opportunity to stay active they should take advantage of it.

This year I am thankful for my spectacular family and the awesome activities that I participate in. I am thankful for these two things because they make my life so much better.
