

Jared Thomas

Thanks

Do you want to know what I am thankful for . I will tell you. I am grateful for my house . Also, I am grateful for my family. I am grateful for my good life.

I am grateful for my house. I know some people who do not have a house. My house keeps me warm and safe from the fierce weather outside. I am appreciative for my family. Some people do not have family. My family makes me laugh with their funny jokes.

I am thankful for my good life. Some people do not have such a good life. If I did not have a good life I would not have my friends and family which I love.

That is why I give thanks. You should too.
