What Am I Thankful For?

I am thankful for my family. I am thankful for my family because without my family I wouldn't have a rooftop to live under and I wouldn't have nutrition on the tabletop to eat. My family takes care of me or I would be an orphan waiting for some loving couple to adopt me. I have a loving family who takes care of me and adores me that is why I am appreciative of my family. Also it is gratifying to have a family because if I wanted something special who is going to pay for the item you want, your family is.

Next, I am grateful for my limitless life. Without my life I wouldn't have come into the world and succeed at what I have succeeded today. For once I am going to get into a really great middle school. I have worked hard since I have come into this world. I have been chosen for the program Rich Principals at York College because I have accomplished successful goals in my life. It is a program about school success leadership language and character. I am not perfect but I always have to practice to reach my goal. No one is flawless not even the President of the United States. We all make mistakes. It's a mutual complication in life that you just have to face individually.

So as you can see, I am thankful for all of the remarkable points that I have identified in my vast report.

Truthfully,

Kyle Raghoonath
