

My name is Samantha Collins and I'm in 5th grade. I am thankful for all of the toys that my parents get me, and the food that they get that goes on our table. Also I am very thankful for my parents because they care for me and love me and they are always there for me when something's wrong with a friend, or something else. They take me to the doctor's when I need it. I am also thankful for the animals we have.

Community- all the people living in one place and following the same rules. I am thankful for the desks that we have in school, and the supplies that we put in our desks. Also the houses that we live in, the beds that we sleep in, and the world that we live on. Happy Thanksgiving!
