

I am thank ful for...

By Nickwyche

I am thank ful for this year because I live in a home a mom that takes good care of me, mom puts a foot over my head. I am thank ful for this year.

I am thank ful for this year because I live in a home. For example when I was first born my mom put me in a house. Here is a nother example. when I was a new we got kicked out of our house and my mom put me in a nother house. But we got kicked out when I was two. Then we found a nother house and they let us stay there. We were living at my aunts house. But then we found a house for sale and it was right next door to my aunts house. I am thank ful for this year.

I am thank ful for this year because My mom takes good care of me. For example when we have no food, before I run out of food she goes to the store to buy more food to feed me and my sister. Here is a nother example. when I get hurt she puts a bandage on the cut. on our vacation I cut my foot and you could see my nose and every night I put a bandage on it and it feels better.
