

**I am thankful for my family because we are like a body, we care for each other.**

**My mom is as beautiful as the beauty eyes can see.**

**My dad is as strong as bones that hold us up.**

**My sister is as caring as the heart that we have.**

**My baby sister is as clumsy as our legs that sometimes make us fall.**

**My fish is as purple as our veins.**

**I am like the brain; I help my sister out when she needs help with her homework.**

**I am thankful for my family because we are like a body, we love each other.**
