

Simone Sturman

I love Thanksgiving because you get to give thanks and I love doing that!
I am grateful for a lot of things like the food I have, the house I live in and the toys I get.

Thank you for all the food I get. Some people don't even have food or money. How sad is that?

I'm also super thankful for all my things like clothing and toys!

I'm also thankful for having such nice teachers staff members and friends to help me learn!

One more of many things I'm grateful for is everyone that loves me and cares for me!
And those are some of the things I'm thankful and grateful for
