

# Thankful Poems

By Amy Marcano's 2<sup>nd</sup> Grade Class

I am thankful for when my cousins visit from Buffalo all the way here. We play on my trampoline and go in my basement. My little cousin loves cars. I have so many cars. He plays with them a lot. My two cousins and I have American Girl dolls. We played with them and then they had to go. I miss them so much.

I am thankful because I have a good teach like Ms. Marcano because she treats me nice. That's why I work so hard in school. And she makes me learn math like two-hundred plus five-hundred that equals seven-hundred. I know a lot about Math. Also I am a really good counter. I feel smart in second grade.

I am thankful for my dad and all he does for me. He took my best friend and me to Dave and Busters because my outside party got rained out. Then he brought us to my house to watch wrestling. It was a three hour Pay Per View. My dad brings me to the pool. He throws me in the pool and we play and get the goggles. We have good times at the pool. I miss him when he goes to work.

Do you know what I'm thankful for? When my cousin comes to visit me from New Jersey on my birthday. She comes just to see me. She slept over the day before my birthday. We ate macaroni and cheese. It was delicious. I love my cousins.

I am grateful for my birthday party that my mom and dad finally let me have. My cousins came and a lot of my football team came too. I got lots of toys but the best things I got were 3 wrestlers, a helicopter and Madden 12. One wrestler was from my uncle and the other was from my friend Thomas. The helicopter was from my friend Kyle and the Madden 12 was from my best friend Tommy. That was the time of my life.

Hi! My name is Olivia and I am thankful for my family. We go to a lot of places like the Halloween block. They trick-or-treat with me. They keep me busy all the time. They keep me company. But the important thing is that they love me and I love them. They always will be right by my side.

I am thankful for my sister Gabriella. She is nice and my favorite family member. She helps me clean my room. She reads me books at night time. She helped me when I fractured my arm. She watches tv and movies with me. She lets me play her iPod Touch when mine is not charged. She lets me know if she likes my drawings. My sister loves me and I love her.

I am thankful for my mom because I had to clean up so many Legos before I could go to the book fair. I earned \$20 and she gave me the \$20 and I got books. But I did have to go clean the Legos when I was done with my homework. When I was done with my homework I cleaned the Legos. And you know...it was not hard.

Hi! My name is Michelle. I am thankful for my cousin Kelly and she lives in Albany. I never get to see her. I only get to see her on birthdays. She lives 3 hours away. When I go to her house I sleep over. It's really fun. At night we play manhunt. We do it inside because it's buggy out. She has a brother Michael and I sleep in Michaels' room. At night I make Kelly laugh and when we are asleep I laugh a little bit. I miss them when I don't see them.
