

What I'm Thankful For

I am very thankful for my mom. I am thankful for her because she gives me love, life and care.

My mom was the one who gave birth to me on May 19, 2001. Without her you wouldn't see me now, would you? No, and I wouldn't be able to enjoy my life.

My mom loves me. How she shows that is that she cares for me, she takes me on special trips and on special holidays, like my birthday, she gets me gifts that I want.

My mom always takes care of me. When I'm sick, she gives me all the medicine I need to get better. When I need new clothes, she buys them for me. When I'm hungry she buys or makes me food. She helps me whenever I need it.

When we go on trips, they are fun. Once, while we were in Mexico, she told me that we were going on a pirate ship! When we got to the ship it was really fun, and really nice of her to take me.

My mom is a very nice person and that is why I am thankful for her.
