

My name is Jordan Coene and I am in 5th grade. I go to school at Gardiners Avenue School. I am thankful for having a family that loves me and cares for me. My dad tries to come home from work early just to spend time with me! My mom doesn't work but she is busy going out and buying food and water and other things we need. (and sometimes what we want!) She also takes me to all of my activities such as acting. My brother can be annoying but I still love him, when I do something good, he always rewards me with a big hug. That is why I am thankful for family.

Environment-the surroundings around you

I am thankful that people are trying to clean up the earth and they are making it a better and cleaner place to live. My friends and I made up a group called "planet preservers" and we help save the earth by planting flowers, picking up litter, raising money for wildlife and a lot more.

There is so much to be thankful for but I wanted you to know that the most important ones are for me.
