

I am very thankful because a lot of people don't have as much as I do. They don't have as much food and water as I do. And where they live it's very hard to find all the stuff that they need to live. Times for them are getting harder and harder. Many of them are dying because of these hard times. That's why we have food drives. Times are starting to get better for a lot of people because of all the other people who are helping a lot of people in need.

And that is why I am thankful for all the nice stuff I have. And I hope that you are thankful for all the stuff I am. The next time you have a holiday say that you don't want any toys because of all the nice stuff that you have like the roof over your head and all of your food and water.

"I'm Thankful For"

The most important thing that I'm thankful for is my family. My family is always there for me. Even though I fight with my sisters I still love them. My mom always helps me with my homework because she cares about me and wants me to get better grades so I can get into a good college. My dad is always encouraging me to try different things. When one of me or my sisters get hurt my dad yells because he doesn't like it when we get hurt because then we'll have a fight.

Another thing that I'm thankful for is food and water. My mom buys us food every week. My mom makes us to put half water and half milk in the babies bottles so they get enough water to drink. My dad goes to the store almost every morning so we have enough food. My sisters and me always get enough food and water every day. My parents work very hard so we have enough food to last us a while.

One other thing that I am thankful for is all the nice things I have. For one thing me and my sisters get to share a phone. I am very thankful for the trip my parents took us on. They took us to Erie PA to go to splash lagoon. I am thankful for the roof over my head so it doesn't rain on me. I am thankful to have a bed to sleep on. I am thankful for my dog. I am very thankful for all of the nice clothing that I have. I am super thankful for school so I could learn how to do just about anything.
