

Alex Tooker Seneca Street School, Oneida City School
District 4th Grade

I am thankful for our forests. I like forests because they are filled with life. Also, the trees provide oxygen. Did you know that sap from trees is like gum? Sometimes forests are good places to play hide and seek. Moreover, in the winter forests are a lot of fun to ski in.

I love our forests.

I have a great teacher! Her name is Mrs. Valesky. Sometimes she is funny. One way she is the best is that she made apple ~~made apple~~ sauce. Also, also we are raising baby trout. Moreover, she would never ever give us a packet. She is the best teacher in the world.
