

I am thankful for all my nice friends because they support me. For example, when I don't score they would cheer me on by saying "nice try". I am also thankful for my brother and sister because when I'm feeling down, or hurt they would always find a way to cheer me up. They also are always by my side. I'm thankful for all my cousins because I know they will always be there for me throughout my life. I am mostly thankful for my mom and because they show me lots of love and they always listen to what I have to say.
