I Am Thankful For ...

I'm thankful for God giving me everything I wanted and needed.

Some of the things he gave me are...

a mom and a dad and all of my other family.

He also gave me a life.

I am also thankful for my friends.

Without my family and friends,

if they weren't there for me...

I wouldn't know how to solve my problems .

I am also thankful for God blessing me with food because...

there are people out there that barely get to eat anything.

Another thing I am thankful for my good education.

Without my education I wouldn't know how to read or write.

These are all the things I am thankful for.
