What I Am Thankful For

11/10/11

Writing

Ms.L

When people ask me what I am thankful for and I tell them..... I am thankful for life. I am thankful for life because without life I wouldn't have a chance to have friends and family that love me. I am also grateful for parents because without parents I wouldn't be alive. If I didn't have a mom and dad I wouldn't have a brother or sister, or family. I couldn't content for anything without life or parents or parents life.

I am also glad for heroes like Dr. Martin Luther King JR. because he helped stop racism and segregation. If he wasn't born I would be going to the back of the bus when I needed to go somewhere. I would also be going to an all black school and be drinking from a nasty water fountain and I wouldn't have half the friends that I have now.

Some people I am pleased with are the man and women severing our nation. If they were not protecting us, the U.S. would be complete chaos. They are willing to risk their lives and be separated from their families to keep us safe. Also, not too many people would be living here they would all be living in heaven.

I am thankful for is one of the most important freedom. Without freedom and rights, I would be working in a factory or become a slave instead of working in a school. I also have a choice to make my future what I want it to be. I also always listen to the rule what goes around comes around. Lastly, I am and everyone else should be responsible, safe, honest, respectful, peaceful, and a problem solver.

THE END
