

I'm Thankful for...

By Emily Carmen, Carly Bales, and Jordyn Rindner

We are thankful for our family. They take care of us by feeding us and giving us a home. We would be lonely without them. We love our sisters, brothers, moms, and dads. They give us all the things that we have today. They make sure we are not cold. They keep us warm and cozy homes. They feed us lots of things so we don't starve. We love to see a turkey on the table on Thanksgiving dinner. Some people don't have all of this. We should all be thankful for what we have. Some people don't have all of this. We are thankful for our family.
