### Thankful

I am thankful for my life because my mom is the best mom and my sister is the best to and when I come home from school my baby sister says, "I love you" and it makes me happy. I am thankful for my mom because she does everything for me. I love it she helps me with all my problems and people that makes fun of me and makes me cry. My mom is the most important person in the world.

I am also thankful for my little sister because she makes me happy when I am sad. She tells me it is all right that makes my day. I am her role model because she looks up to me and imitates the things that I do.
