

Sam Estrella

I am thankful for the life I have because I have great parents, a nice brother, and a wonderful dog. The reason my parents are the best because they put clothes on my back and I can always count on them to be there when I need help or advice. My dad taught me how to cut so I could become a barber like him and my brother to. After he would take us out to eat for my accomplishments.

The reason I my brother is because he treats me with respect and lets me use some of his stuff. We get along better now that we are older and more mature.

Lastly, I am thankful for my dog. The reason I am thankful for my dog because he likes to cuddle with me and whenever he's

hungry he gives me the puppy dog face.
